

Hello,

Castle Rock Development Company is pleased to announce that the Prairie Hawk street widening project will begin this spring, as promised.

Construction is planned to begin the week of May 8th, and is scheduled to continue into late-fall. This phased project will impact traffic on Prairie Hawk between Fire Station No. 4 south to The Meadows property boundary. Detours, lane closures, and lane realignments should be expected.

We know that traffic delays and detours can be frustrating so we hope to keep you ahead of any setbacks by providing regularly updated information here:

www.meadowscastlerock.com/prairiehawk

We will update the link with closures, detours, and information that will help you navigate the project. Information will also be posted on Facebook and other media outlets.

Thank you for your patience,

CRDC
